The Mercer County Recorder's Office started converting documents on the Cris Program on 10-06-1999 with Document # 167803.

Mercer County is a member of NDRIN and started exporting images on 4-13-2006. We have been back scanning our documents, and as of 5-15-2007 we have documents imaged to 2-19-2004 with Document # 177400. As we have time, we will continue to back scan our documents, and will keep this page updated as to how far we have the images scanned.

The Mercer County Courthouse burned December 8, 1906. So our records at the Courthouse are from that date on. There is an affidavit of Fire recorded in Miscellaneous Book 7, page 475.
