Government Lots and Outlots

When searching for Government Lots and Outlots it would be best to search by section, township and range fields. Documents that have been recorded since April 2010 have been indexed by placing the lot number in the Lot/Unit field. To ensure a more accurate search please search by section, township and range.

Corner Records

Sargent County is currently back scanning and renumbering all corner records. Currently, Corner Records available on NDRIN range from March 2001 to Present. The numbering system that is being used is as follows; C as in Corner and 5 digits, for example C00840. If you need a copy of the index page please contact me at the email address below.
